

Dear Capital News:

We are students from Black Mountain Elementary School who are very concerned about our water here in the Okanagan!

Do not waste water because you won't die water you won't wash your clothes you won't take a bath you won't brush your teeth
By Arian Torres

Dear capital news: if you have a tap on you should turn the tap off right away.

We don't want to waste water!

Carson

We need water to live.

NIKO BE WATER WISE and if you have water try to fix it.

Every drop counts

Dallas

Don't pour oil in the ocean because the whales will die.
Leob

We can not oil in ocean. the boats. From by man-made

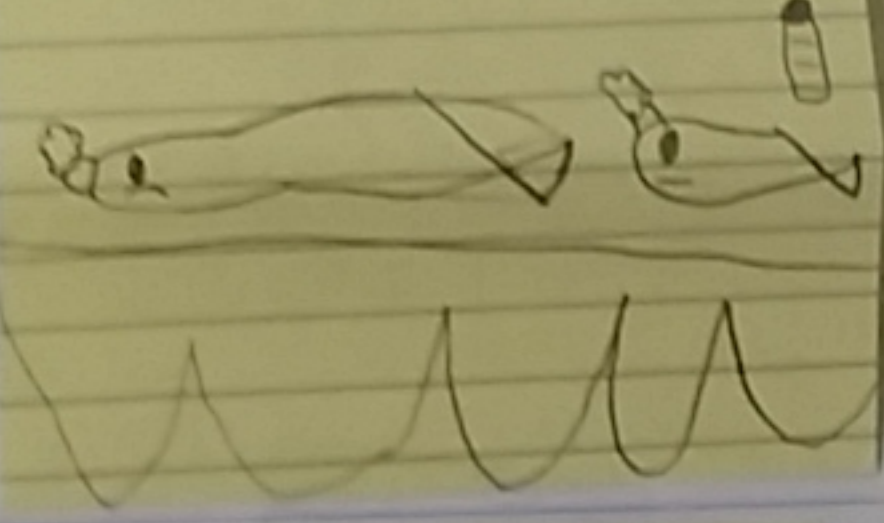

Dear Capital News I am Nicole. If there was one drop of water in the world we couldn't live. Don't dump oil in the water or the walls skin will hurt. And that is being water wise.

Arikam Torres
Do not waste water because you won't die water you won't wash your clothes you won't take a bath you won't brush your teeth

Jenna
It is not good to waste water. It is not good to the earth.

I am Janya. don't dump oil in the ocean. oil kills the dolphins and other creatures in the ocean. they can't live there. and they can't move.

Olivia D.
Dear Capital News do not throw garbage in our ocean. you will kill our waves and animals.

Watt p.
you can die with waste water.

We use water for many things. Washing clothes.

Dear Capital News
We need water to drink. You don't want to take care of it. You need to take care of it. You need to take care of it.

From Darialette

Dear Capital News
We are students from Black Mountain Elem. School who are very concerned about our water here in the Okanagan by man-made.

Don't waste our water because we need to wash dishes.

Don't throw dirt, big in the ocean.

From Easton
If you leave the sink on we will run out of water.

I am a girl and I can help the world by not wasting water.

But we need water to drink. Also, but we need water. By us we can save water.

Happy water

WaterWise
Challenge

Play H2O Bingo & WIN!

H 2 O

Classroom

Visit a wetland. Tell us the value of these special places. Send us a selfie of you and your class at the wetland.

Send us a list of 5 things that should NEVER go down a drain!

Check for leaks in your home or school. If you need help, ask an adult. Plan to fix any you find! Send us a photo of your class in action.

Join or do your own beach, or creek, clean up. Send us a picture of how much garbage you collected. What was the most interesting thing you found?

Free
Space

Show us how you protect & save water. Be creative: send us a video, drawing, picture, or ???

Watch a film about water. Write a short review and send it to us!

Do some research into how much water it takes to make a t-shirt. Let us know if it is more or less than you thought.

Write a letter to your local newspaper telling them why protecting water is important and how everyone can be WaterWise.

Complete a row of 3 for great prizes!

Plus be entered into our grand prize draw. Full details at okwaterwise.ca

Attention: Capital News

To whom it may concern:

I wanted to speak to you today because

I wanted to tell you why protecting water is

important. Water protection starts by using less

water every day. We can also protect lakes,

Oceans, ponds and rivers by not throwing garbage

in them. Conserving water by making good

water choices like using a bucket to wash
your car also helps to protect water.

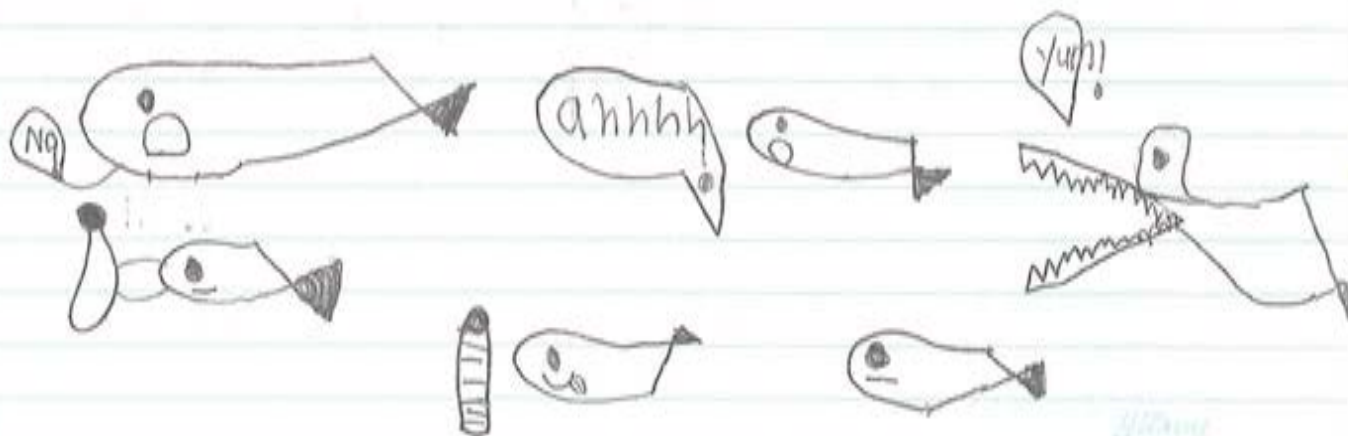

It is easy to be waterwise, to protect

the future

Sincerely,

Zoe

Dear Capital News
I would like to talk
about how to save water.
When I brush my teeth
I can rinse my toothbrush
then turn off the tap.
How we can save our
Onahagah. garbage by not throwing
in our lake
and ocean. by Olivia De
Simone. Gil. Class

Dear Editor of News

Hello I want to talk to you
about Saving water. One of the things I
want to talk about is not Spilling
oil into the water. It is bad for
the animals that live in the water.
Especially whales it will hurt their
skin. Now lets talk about not turning
off the water because we dont want
to be wasteful anythn way is to wash your
car with a bucket. And that is being water wise.

Capture every drop

A hand-drawn speech bubble with a blue outline. Inside, the word "NO" is written in large, bold, black capital letters. To the right of "NO" is a series of five small, hand-drawn circles, resembling a dotted line or a sequence of dots. The speech bubble has a small blue triangle at the bottom left, indicating the direction of the speech.
