Alex's Great Adventure into the Wetlands

My best friend Trish and I had fun taking pictures of little fish in the water that the birds like to eat. The fish will grow into big fish and then they will eat the bugs who also live here.

We saw a bunch of turtles on a log and an otter who was eating.

Jerry and Fred were looking for some butterflies and dragonflies. They flew too fast. There was also a big bird called a heron, baby ducks and lots of frogs.

Alex Peterson Age 9
April 21, 2015
Munson Pond, Kelowna

Take the **Challenge** March 16-April 24.

Class and **Individual** entries!

Win a **Boat Cruise**, pool passes,
